One more thing. We can't send you some documentaries of how the fishermen collect the plastics and the situations during clean up yet, Because we buy plastics from them. I haven't participate on some cleanup activities with them so far.

will squeeze most of the water
out

I will send a truck of Ocean Plastic Waste tomorrow noon at 2PM.

22:13

Honestly, I haven't seen them yet. But please deduct it accordingly. As for now I will say 30%. 🙏

22:16

Tomorrow will be fresh from the ocean.. It will only arrive at my warehouse around 12. So, will let you know the conditions by tomorrow.

22:18

Can you bring a few people to help with it. We will have to bale it i think. It's the only way to get the water out ?

22:24 ✓✓

**Febri Indonesia**

Umm.. ok.. I will discuss with my guy tomorrow morning then I will let u know. 👍👍

22:30

It might be ok 22:32 ✓✓

I have 2 options to suggest:

1. Hang them dry for 1 week at my place, then ship to your warehouse (without bale-ing)

OR

2. Send them directly after we collect from fishermen, then bale at your warehouse (With my manpower)

You can always deduct the price by 30% for both options. I am cool with that.

Wdyt? I hope Both options

**Febri Indonesia**

Wdyt? I hope Both options
seem fine to you

22:49

Kieran, I am very sorry if it
seems that I am a bit
demanding.

22:49

I am doing efficiency for my
side as you know that I buy
those plastics from fishermen
at Rp500/kg.

As for me, the efficiency of my
manpower, warehouse, and
logistics will matter the most.

22:50

Let's send it and bale it with
your guys

22:51 ✓✓

I think that's the best thing
do

We're doing this for the sake of clean ocean 🙌 . And I will support your goodwill about this. 💪
